PARTICIPANT GUIDE

9th CIRIEC International Research Conference on Social Economy

(Seoul, 4-6 July 2023)

“Building forward better: SSE for a peaceful and fair world”

CIRIEC international and the Sungkonghoe University are very happy to welcome you at this 9th edition of its international forum around Social economy issues held for the first time in an Asian country.

Through this encounter among researchers and with local players we aim to learn more about the reality and the emerging trends of the social economy in the Republic of Korea and its neighbour countries. It will also give us the opportunity to debate around the advances of science around themes specific to that sector and about the remaining key issues for research in the field.

This forum of exchanges between researchers, young and senior, world well known keynote speakers, promotion agencies representatives and policy makers will undoubtedly contribute to increase our knowledge about Social Economy and its achievements in various sectors of activity and in various parts of the world.

Our very varied themes of speeches and papers presentations focus all on the main challenges and stakes for our societies nowadays - be they highly developed or in development. Papers on democratic governance, partnerships, impact measurement, gender issues, social cohesion, reconstruction, imagination and utopia... will bring light on the key role the organizations of the social economy already play and will extend to build a better future.

The sustainable development economic, social and environmental goals will be at the core of our discussions, the construction of a more peaceful and fair world being our priority.

Speakers from more than 30 countries will also share their research results, giving us the opportunity to debate around the advances of science around themes specific to the field.

About CIRIEC

Founded in 1947, the **International Centre of Research and Information on the Public, Social and Cooperative Economy (CIRIEC)** is an international non-governmental scientific organization that currently has 14 national sections and 11 affiliated members throughout the world.

Its objectives are to undertake and promote the collection of information, scientific research, and the publication of works on economic sectors and activities oriented towards the service of the general and collective interest.

CIRIEC has an original feature since it develops activities of interest for both managers and researchers active in serving the general or collective interest. CIRIEC aims at being an international meeting point and a locus of research and reflection networking, without lobbying for any particular interests.

About Sungkonghoe University

Sungskonghoe University, which is hosting the 9th CIRIEC International Research Conference, was founded in 1914 as St. Michael's Seminary School, and has a history in Korea that spans over 100 years. Sungkonghoe University is the only university in Korea with human rights and peace as its core mission.

Throughout Korea's history of successful democratization and industrialization, Sungkonghoe University has a proud intellectual tradition of engaging with and practicing in society. In 2010, Sungkonghoe University became the first university in Korea to offer a PhD/MS program in cooperative management, and in 2016, it added a Co-op MBA program. The program is based on the core values of "Creativity, Openness, Mediation, and Engagement," and aims to nurture practical talents who can contribute to social development with specialized knowledge about cooperative management and independent research abilities. The program also offers researchers and cooperative managers training for the theoretical perspectives of cooperative management.

Since 2010, the program has produced high-quality research papers in well-known journals, and has helped to reinforce the research-oriented identity of the Department and strengthen students' research capabilities. After graduation, students will be able to play a leading role in the field of cooperative management as well as in academia. With the expansion of its global network, the program is growing to be one of the prominent research institutions. The program's close working relationship with the cooperative movement in Korea and around the world enables students and practitioners to get first-hand knowledge of this field.
